

WETLAND ENHANCEMENT INSTRUCTIONS FOR USE OF SPECIFICATION 659

1. APPLICABILITY

Construction Specification 659 is applicable to installation of earthen structures, either excavated and/or with an embankment.

It is not applicable to Waste Storage Facility (CP313) or Sediment Basins (CP350).

c. Structural requirement limitations and restrictions such as:

- (1) fill requirements, including compaction
- (2) Spoil location(s)
- (3) foundation and drainage requirements

2. ITEMS TO BE INCLUDED IN SECTION 9 AND/OR DRAWINGS

a. Material requirements, including but not limited to:

- (1) pipe sizes, type, strength
- (2) water control structures
- (3) concrete requirements (if applicable)
- (4) metal type and grade
- (5) wood species and grade, or strength
- (6) geotextile type
- (7) pressure treated wood and fastener requirements
- (8) masonry type and reinforcing
- (9) drainage and bedding materials

b. Applicable dimensions, plan view, work limits, excavation/fill limits, finished grades and elevations

d. Safety components (e.g. fences, steps, gates)

e. Identify permit needs where applicable

f. Erosion and sediment control

g. Temporary and permanent vegetative requirements

h. Reference to other practice specifications (e.g. 327, 342, 378, 382, 606, 620), if applicable.
